Earldoms Cracked The Code 6-7

Within the space of two weeks Jock changed from a bubbly energetic dog to a very sick boy and was put to sleep to save further suffering .

A few words in his memory.

To call him a dog hardly seems to do him justice, though in as much as he had four legs, a tail and barked, I admit he was, to all outward appearances, but to those of us knew him, he was a perfect gentleman and friend.

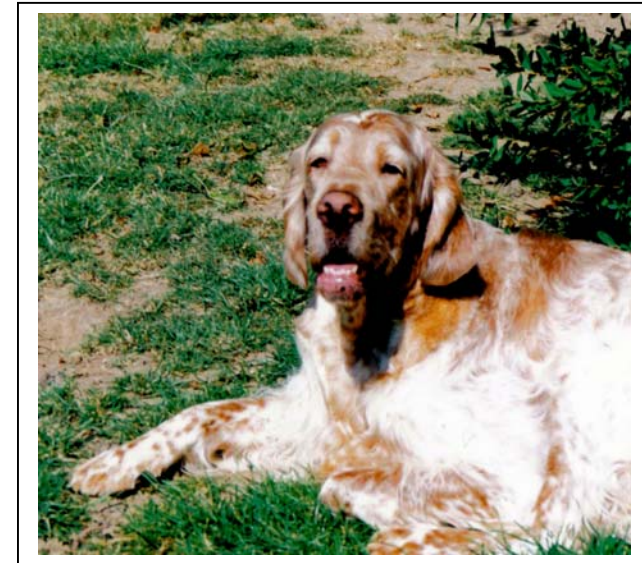

His spirit will continue to be with us through his off-springs, he will not be forgotten.

IN MEMORY OF OUR MOLLY

(BRENHOLM OUT OF THE BLUE AT FLECKERS)

1996-2006

Molly was our second Brenholm, and was all we expected, and more, of an English Setter bred by Ann and Glyn Meredith. Loving and gentle, and even stayed close on walks, coming when called. She was a show girl, and achieved one reserve CC, but mostly she was a pet. She curled up with our grandchildren, and in later years was most likely to be found upside down, on the settee, she welcomed new puppies who readily curled up with her at night. We are still devastated to have to say goodbye to her just one week short of her tenth birthday, and cherish the memories we have of her.

LILY

**Brenholm Intrepid Lady of Earldoms
11/05/1993- / 2006**

Possibly one of the most cantankerous English Setters to have graced the show ring over the past years, but certainly one of the most loving and faithful with a character that was certainly all her own.

Much missed by Val and Dave Cozens and all the other setters that still live here all be it slightly quieter.

GEMSETT DELECTABLE DORIS

Sh Ch Roszarke Early Edition of Fishwick
X Sh Ch Mareiglen Sets the Pace with Gemsett

Pictured above is my lovely Doris who was p.t.s. to save her dignity, this is the hardest thing I have ever written.

Doris nearly made her eleventh birthday, she was nursed by me for all of those years with various ailments but she was such a happy girl even though at times she was very poorly. Life here will never be the same she was my little mate, and I miss her wagging tail and smiley face as does Mariglen Marvelous Mabel her soul mate, who completely stopped eating for weeks after Doris died, I thought I was going to lose her too.

I don't regret one minute of the time I was allowed with Doris and I thank Linda and Jane for entrusting her with me.

Goodbye happy waggy girl, until we meet again.
